THIS FILING IS

# FERC FINANCIAL REPORT FERC FORM No. 1: Annual Report of Major Electric Utilities, Licensees and Others and Supplemental Form 3-Q: Quarterly Financial Report

These reports are mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1 and 141.400. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider these reports to be of confidential nature

| Exact Legal Name of Respondent (Company) | Year/Period of Report |

FERC FORM NO. 1 (REV. 02-04)

# **INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q**

# **GENERAL INFORMATION**

### I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1), FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

### II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities, Licensees, and Others Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-0 (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- 1. one million megawatt hours of total annual sales,
- 2. 100 megawatt hours of annual sales for resale,
- 3. 500 megawatt hours of annual power exchanges delivered, or
- 4. 500 megawatt hours of annual wheeling for others (deliveries plus losses).

### III. What and Where to Submit

- a. Submit FERC Form Nos. 1 and 3-Q electronically through the eCollection portal at <u>https://eCollection.ferc.gov</u>, and according to the specifications in the Form 1 and 3-Q taxonomies.
- b. The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- c. Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at: Secretary

Federal Énergy Regulatory Commission 888 First Street, NE Washington, DC 20426

d. For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

### The CPA Certification Statement should:

- a. Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b. Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

| <u>Schedules</u>               | Pages   |
|--------------------------------|---------|
| Comparative Balance Sheet      | 110-113 |
| Statement of Income            | 114-117 |
| Statement of Retained Earnings | 118-119 |
| Statement of Cash Flows        | 120-121 |
| Notes to Financial Statements  | 122-123 |

e. The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of [COMPANY NAME] for the year ended on which we have reported separately under date of [DATE], we have also reviewed schedules [NAME OF SCHEDULES] of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases." The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- f. Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. Further instructions are found on the Commission's website at <u>https://www.ferc.gov/ferc-online/frequently-asked-questions-faqsefilingferc-online</u>.
- g. Federal, State, and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from <u>https://www.ferc.gov/generalinformation-0/electric-industry-forms</u>.

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a. FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and
- FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

### V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

# **GENERAL INSTRUCTIONS**

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret all accounting words and phrases in accordance with the USofA.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII. For any resubmissions, please explain the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.
- X. Schedule specific instructions are found in the applicable taxonomy and on the applicable blank rendered form.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

FNS - Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.

FNO - Firm Network Service for Others. "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.

LFP - for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

OLF - Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.

SFP - Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.

NF - Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.

OS - Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.

AD - Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

### DEFINITIONS

- Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

# **EXCERPTS FROM THE LAW**

# Federal Power Act, 16 U.S.C. § 791a-825r

Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to with:

- 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;
- 4. 'Person' means an individual or a corporation;
- 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power; ......
- 11. "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

FERC FORM NO. 1 (ED. 03-07)

- "Sec. 4. The Commission is hereby authorized and empowered
- a. 'To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."

### "Sec. 304.

- a. Every Licensee and every public utility shall file with the Commission such annual and other periodic or special\* reports as the Commission may by rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies\*.10
- "Sec. 309

The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

## **GENERAL PENALTIES**

The Commission may assess up to \$1 million per day per violation of its rules and regulations. See FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

| CORPORATIONS CONTROLLED BY RESPONDENT   |  |                               |   |  |  |
| <ol> <li>Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.</li> <li>If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.</li> <li>If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.</li> </ol> |  |                               |   |  |  |

1. See the Uniform System of Accounts for a definition of control.

See the Uniform System of Accounts for a definition or control.
 Direct control is that which is exercised without interposition of an intermediary.
 Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
 Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

# OFFICERS

Report below the name, title and salary for each executive officer whose salary is \$50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policy making functions.
 If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and the date the change in incumbency was made.

#### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### ORGANIZATION

Transource Oklahoma was established to build and own transmission facilities in Oklahoma. Transource Energy owns all of Transource Oklahoma's outstanding equity. AEP Transmission Holdco and Evergy Transmission Company, LLC hold 86.5% and 13.5% membership interests in Transource Energy, respectively.

AEPSC and Evergy Metro, Inc. provide services to Transource Energy through service agreements. Transource Oklahoma does not have employees.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Rates and Service Regulation

The FERC regulates Transource Oklahoma's rates and is permitted to review and audit Transource Oklahoma's books and records. The FERC regulates the affiliated transactions of Transource Oklahoma, including affiliated transactions involving AEPSC and Evergy Metro, Inc. billings at cost under the 2005 Public Utility Holding Company Act and the Federal Power Act.

The FERC has issued orders authorizing the inclusion of the Transource Oklahoma formula rate and transmission revenue requirement in the OATT administered by SPP. The FERC order implemented an ATRR for Transource Oklahoma. Under this revenue requirement, Transource Oklahoma makes annual filings in order to recover prudently incurred costs and an allowed return from wholesale transmission customers of SPP. An annual rate filing is made for each calendar year using estimated costs, which is used to determine the billings to SPP ratepayers. The annual rate filing is compared to actual costs with any under- or over-recovery being true-up with interest and recovered or refunded in future year rates. The FERC has approved the use of a formula rate methodology for recovery of all prudently incurred operation and maintenance expenses, a return on debt and equity on all capital expenditures in connection with Transource Oklahoma's projects as well as an income tax allowance. As a result, Transource Oklahoma recognizes revenue when the underlying performance obligations are satisfied. Basis of Accounting

Transource Oklahoma's accounting is subject to the requirements of the FERC and the OCC. The financial statements have been prepared in accordance with the Uniform System of Accounts prescribed by the FERC. The principal differences from GAAP include:

- The requirement to report deferred tax assets and liabilities separately rather than as a single amount.
- The exclusion of current maturities of long-term debt from current liabilities.
- The classification of accrued taxes as a single amount rather than as assets and liabilities.
- . The classification of certain nonoperating expenses as miscellaneous nonoperating expense instead of as operating expense.
- The separate classification of income tax expense for operating and nonoperating activities instead of as a single income tax expense.
- The classification of certain other assets and liabilities as noncurrent instead of current.
- The inclusion of income taxes as a component of the financial statements rather than the exclusion of
  income taxes due to structure as a limited liability company.
- . The classification interest on regulated finance leases as Operating Expense instead of Other Income (Expense).
- . The classification of certain expenses in operating income rather than operating expenses.
- . The classification of cloud computing implementation costs as Utility Plant rather than as a noncurrent asset.
- The classification of carrying charges for transmission over/under recovery in non-operating income rather than non-operating expenses.

#### Accounting for the Effects of Cost-Based Regulation

As a rate-regulated entity, Transource Oklahoma's financial statements reflect the actions of regulators that result in the recognition of certain revenues and expenses in different time periods than enterprises that are not rate-regulated. Under Transource Oklahoma's formula rate mechanism and in accordance with accounting guidance for "Regulated Operations," Transource Oklahoma records regulatory assets (deferred expenses) and regulatory liabilities (deferred revenue reductions or refinds) to reflect the economic effects of regulation in the same accounting period by matching expenses with their recovery through regulated revenues and by matching income with its passage to customers in cost-based regulater ates.

#### Use of Estimates

The preparation of these financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates include, but are not limited to, long-lived asset impairment, the effects of regulation including formula rate revenues, long-lived asset recovery and the effects of contingencies. The estimates and assumptions used are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results could ultimately differ from those estimates.

### Cash and Cash Equivalents Cash and Cash Equivalents Supplementary Information

Cash and Cash Equivalents on the statements of cash flows include Cash, Working Fund and Temporary Cash Investments on the balance sheets with original maturities of three months or less.

|   | 2023  | 20             | 022 |     |
|---|-------|----------------|-----|-----|
| For the Years Ended December 31,                                      |       | (in thousands) |     |     |
| Cash Paid for Interest (Net of Capitalized Amounts)                   | \$ 70 |                | \$  | 190 |
| As of December 31,  |       |                |     |     |
| Construction Expenditures Included in Current and Accrued Liabilities |       | 28,661         |     | 1   |

#### Accounts Receivable

Accounts receivable primarily includes receivables from SPP based on the monthly allocation of the tariff rates that were authorized in the FERC order.

#### Transmission Property

Transmission property is stated at original cost. Additions, major replacements and betterments are added to the property accounts. Under the group composite method of depreciation, continuous interim routine replacements of items such as poles, transformers, etc. result in original cost retirements, less salvage, being charged to accumulated depreciation. The group composite method of depreciation assumes that on average, asset components are retired at the end of their useful lives and thus there is no gain or loss. The equipment in each primary electric plant account is identified as a separate group. The depreciation rates that are established take into account the past history of an affiliated company as a proxy of interim capital replacements and the amount of salvage received. These rates and the related lives are subject to periodic review. Removal costs, when incurred, will be charged to accumulated depreciation. The costs of labor, materials and overhead incurred to operate and maintain the transmission property is included in operating expenses.

Long-lived assets are required to be tested for impairment when it is determined that the carrying value of the assets may no longer be recoverable or when the assets meet the held-for-sale criteria under the accounting guidance for "Impairment or Disposal of Long-Lived Assets." When it becomes probable that an asset in service or an asset under construction will be abandoned and regulatory cost recovery has been disallowed, the cost of that asset shall be removed from plant-inservice or CWIP and charged to expense.

The fair value of an asset or investment is the amount at which that asset or investment could be bought or sold in a current transaction between willing parties, as opposed to a forced or liquidation sale. Quoted market prices in active markets are the best evidence of fair value and are used as the basis for the measurement, if available. In the absence of quoted prices for identical or similar assets or investments in active markets, fair value is estimated using various internal and external valuation methods including cash flow analysis and appraisals.

Transource Oklahoma had \$67 thousand and \$28 thousand of depreciable assets in-service as of December 31, 2023 and 2022, respectively. The projected completion date of the Transource Oklahoma project is in 2026. Depreciable assets inservice will continue to increase as the project moves towards completion.

#### Allowance for Funds Used During Construction (AFUDC)

AFUDC represents the estimated cost of borrowed and equity funds used to finance construction projects that is capitalized and recovered through depreciation over the service life of regulated transmission property. Valuation of Nonderivative Financial Instruments

The book values of Cash, Special Deposits, Accounts Receivable from Associated Companies, Accounts Payable to Associated Companies, Customer Accounts Receivable and Accounts Payable approximate fair value because of the short-term maturity of these instruments.

The accounting guidance for "Fair Value Measurements and Disclosures" establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). Where observable inputs are available for substantially the full term of the asset or liability, the instrument is categorized in Level 2. When quoted market prices are not available, pricing may be completed using comparable securities, dealer values, operating data and general market conditions to determine fair value. Valuation models utilize various inputs such as commodity, interest rate and, to a lesser degree, volatility and credit that include quoted prices for similar assets or liabilities in active markets, market, market is in active markets, inputs (i.e. inputs derived principally from, or correlated to, observable market data) and other observable inputs for the asset or liability.

#### **Revenue Recognition**

Regulatory Accounting

Transource Oklahoma's financial statements reflect the actions of regulators that can result in the recognition of revenues and expenses in different time periods than enterprises that are not rate-regulated. Regulatory assets (deferred expenses or alternative revenues recognized in accordance with the guidance for "Regulated Operations") and regulatory liabilities (deferred revenue reductions or refunds) are recorded to reflect the economic effects of regulation in the same accounting period by matching expenses with their recovery through regulated revenues and by matching revenues in cost-based regulated regulated res.

When regulatory assets are probable of recovery through regulated rates, Transource Oklahoma records them as assets on its balance sheets. Transource Oklahoma tests for probability of recovery at each balance sheet date or whenever new events occur. Examples of new events include the issuance of a FERC order or passage of new legislation. If it is determined that recovery of a regulatory asset is no longer probable, the regulatory asset is detecognized as a charge against income.

#### Transmission Revenue Accounting

Pursuant to an order approved by the FERC, Transource Oklahoma is included in the OATT administered by SPP. The FERC order implemented an ATRR for Transource Oklahoma. Under this requirement, AEPSC, on behalf of Transource Oklahoma, makes annual filings in order to recover prudently incurred costs (including amortization of the formation cost regulatory asset) and an allowed return on plant in service and CWIP. An annual formula rate filing is made for each calendar year using estimated costs which is used to determine the billings to SPP ratepayers. The estimated costs in the annual rate filing is ommapred to actual costs with any over- or under-recovery being trued-up with carrying charges and recovered or refunded in a future year's rates. These annual true-ups meet the definition of alternative revenues in accordance with the accounting guidance for "Regulated Operations". An estimated annual true-up is recorgized by Transource Oklahoma in the second quarter of each calendar year following the filing of annual FERC types.

Transource Oklahoma recognizes revenue when the underlying performance obligations to design, develop, construct, operate and maintain the transmission plant are satisfied and as it incurs recoverable costs and earns the allowed return on plant in service and CWIP on a monthly basis. See Note 10 - Revenue from Contracts with Customers for additional information.

#### Income Taxes

Transource Oklahoma is a tax partnership that is owned 86.5% by AEP Transmission Holdco and 13.5% by Evergy Transmission Company, LLC. As a result, Transource Oklahoma is not liable for federal or state income taxes. The income tax effect of Transource Oklahoma's activities flows directly to AEP Transmission Holdco (a single-member limited liability company, taxable as a corporation) and Evergy Transmission Company, LLC. (a single-member limited liability company). AEP Transmission Holdco and Evergy Transmission Company, LLC's tax owner entity report their respective shares of Transource Oklahoma's earnings, gains, losses, deductions and tax credits on their respective federal and state income tax redures.

Transource Oklahoma is allowed, however, to recover in rates, as a component of its cost of service, the amount of income taxes that are the responsibility of AEP Transmission Holdco and Evergy Transmission Company, LLC's tax owner entity. Transource Oklahoma is also required to adjust its rate base by the amount of deferred tax assets and liabilities it would have recorded if it were a taxable corporation.

Transource Oklahoma will continue to work with the FERC to determine the appropriate mechanism and time period over which to provide the benefits of Tax Reform to customers. Transource Oklahoma expects the mechanism and time period to provide the benefits of Tax Reform to customers will reduce future cash flows, net income and may impact financial condition.

#### Subsequent Events

Management reviewed subsequent events through April 9, 2024, the date that Transource Oklahoma's 2023 FERC Form 1 was available to be issued.

# 2. <u>NEW ACCOUNTING STANDARDS</u>

During the FASB's standard-setting process and upon issuance of final standards, management reviews the new accounting literature to determine its relevance, if any, to Transource Oklahoma's business. There are no new standards expected to have a material impact on Transource Oklahoma's financial statements.

### 3. RATE MATTERS

Transource Oklahoma is involved in rate and regulatory proceedings at the FERC. Rate matters can have a material impact on net income, cash flows and possibly financial condition. Recent significant rate orders and pending rate filings are addressed in this note.

#### Formula Rate

Transource Oklahoma submits an annual filing with SPP which establishes its projected transmission revenue requirement (PTRR). The new rates become effective at the beginning of the year and are subject to refund and true-up. The formula rates establish rates for one year and also include a true-up calculation for the prior year's billings, allowing for (over)/under-recovery of the PTRR. The following table summarizes Transource Oklahoma's PTRR with remaining (over)/under-recovery balances:

|      |      |       |                             | Remaining (Over)/Under-Recovery |                       |                |      |
|------|------|-------|-----------------------------|---------------------------------|-----------------------|----------------|------|
| Year | PTRR |       | Total (Over)/Under-Recovery |                                 | December 31, 2023 (a) | December 31, 2 | .022 |
|      |      |       | (in thousan                 | ıds)                            |                       |                |      |
| 2022 | \$   | 35 \$ | 95                          | \$                              | 93                    | s              | 90   |
| 2023 |      | 94    | 158 (b)                     |                                 | 158                   |                | _    |
| 2024 |      | 292   | — (b)                       |                                 | _                     |                | _    |

(a) As of December 31, 2023, the remaining under-recovery balance was recorded as \$13 thousand as Accounts Receivable from Associated Companies and \$238 thousand as Regulatory Assets.

(b) These amounts represent estimated (over)/under-recovered revenues, subject to refund and true-up. The true-up of these revenues will be incorporated in a future PTRR that is filed in the third quarter of each calendar year. The 2023 true-up will be incorporated in the 2025 PTRR and the 2024 true-up will be incorporated in the 2025 PTRR.

#### 4. EFFECTS OF REGULATION

Transource Oklahoma did not have any regulatory liabilities as of December 31, 2023 and 2022. Regulatory assets are comprised of the following items

|   | December 31,<br>2023 | December 31,<br>2022 | Remaining<br>Recovery Period |
|---|----------------------|----------------------|------------------------------|
| Regulatory Assets:  | (in thou             | sands)               | ·                            |
| Regulatory assets pending final regulatory recovery:      |                      |                      |                              |
| Regulatory Assets Currently Not Earning a Return          |                      |                      |                              |
| Pre-Commercial Costs                                      | \$ 423               | \$ 529               |                              |
| Total Regulatory Assets Pending Final Regulatory Approval | 423                  | 529                  |                              |
| Regulatory assets approved for recovery:                  |                      |                      |                              |
| Regulatory Assets Currently Earning a Return              |                      |                      |                              |
| FERC Formula Rates Under Recovery                         | 238                  | 90                   | 2 years                      |
| Total Regulatory Assets Approved for Recovery             | 238                  | 90                   |                              |
| Total FERC Account 182.3 Regulatory Assets                | \$ 661               | \$ 619               |                              |

### 5. COMMITMENTS, GUARANTEES AND CONTINGENCIES

Transource Oklahoma is subject to certain claims and legal actions arising in its ordinary course of business. In addition, Transource Oklahoma's business activities are subject to extensive governmental regulation related to public health and the environment. The ultimate outcome of such pending or potential litigation cannot be predicted. Transource Oklahoma accrues contingent liabilities only when management concludes that it is both probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. When management determines that it is not probable, but rather reasonably possible that a liability has been incurred at the date of the financial statements and the amount of loss or range of loss if such estimate can be made. Any estimated range is based on currently available information and involves elements of judgment and significant uncertainties. Any estimated range of possible loss may not represent the maximum possible loss exposure. Circumstances change over time and actual results may vary significantly from estimates.

For current proceedings not specifically discussed below, management does not anticipate that the liabilities, if any, arising from such proceedings would have a material effect on the financial statements.

GUARANTEES

Liabilities for guarantees are recorded in accordance with the accounting guidance for "Guarantees." There is no collateral held in relation to any guarantees. In the event any guarantee is drawn, there is no recourse to third-parties unless specified below.

#### Indemnifications and Other Guarantees

Transource Oklahoma enters into certain types of contracts which require indemnifications. Typically these contracts include, but are not limited to, lease agreements, purchase agreements and financing agreements. Generally, these agreements may include, but are not limited to, indemnifications around certain tax, contractual and environmental matters. As of December 31, 2023, there were no material liabilities recorded for any indemnifications.

# 6. FAIR VALUE MEASUREMENTS

### Fair Value Measurements of Long-Term Debt

The fair values of Long-Term Debt are based on quoted market prices, without credit enhancements, for the same or similar issues and the current interest rates offered for instruments with similar maturities classified as Level 2 measurement inputs. These instruments are not marked-to-market. The estimates presented are not necessarily indicative of the amounts that could be realized in a current market exchange.

The book values and fair values of Transource Oklahoma's Long-Term Debt are summarized in the following table:

|   |                        | December 31, 2023 |            |          | December 31, 2022 |                |      |
|---|------------------------|-------------------|------------|----------|-------------------|----------------|------|
|   | B                      | Book Value        | Fair Value | Boo      | k Value           | Fair Value     |      |
|   |                        |                   | (in th     | ousands) |                   |                |      |
|   | \$                     | 46,800 \$         | 42,715     | \$       | 13,000 \$         | 13,000         |      |
| 7. INCOME TAXES                         |                        |                   |            |          |                   |                |      |
| Income Tax Benefit                      |                        |                   |            |          |                   |                |      |
| The details of Transource Oklahoma's in | come taxes as reported | l are as follows: |            |          |                   |                |      |

### Net Income Tax Operating Loss Carryforward

Transource Oklahoma had \$439 thousand and \$333 thousand of unrealized federal net income tax operating loss carryforward as of December 31, 2023 and 2022, respectively. As a result, Transource Oklahoma recognized \$21 thousand and \$70 thousand of deferred federal income tax benefit in 2023 and 2022, respectively. Transource Oklahoma also had Oklahoma state net income tax operating loss carryforwards of \$1.4 million and \$1.3 million in 2023 and 2022, respectively. As a result, Transource Oklahoma recognized deferred state income tax benefits of \$54 thousand and \$50 thousand in 2023 and 2022, respectively. This carryforward for Oklahoma expires 2037. Management anticipates future taxable income will be sufficient to realize both the federal and state net income tax operating loss tax benefits. 8. FINANCING ACTIVITIES

#### Long-Term Debt

The following table details long-term debt outstanding:

In January and February 2024, Transource Oklahoma issued \$16 million and \$2 million of Intercompany Notes Payable to Transource Energy, respectively.

#### **Dividend Restrictions**

Transource Oklahoma pays dividends to Transource Energy provided funds are legally available. Various financing arrangements and regulatory requirements may impose certain restrictions on the ability of Transource Oklahoma to transfer funds to Transource Energy in the form of dividends.

All of the dividends declared by Transource Oklahoma are subject to a Federal Power Act requirement that prohibits the payment of dividends out of capital accounts in certain circumstances; payment of dividends is generally allowed out of retained earnings. As of December 31, 2023, the maximum amount of restricted net assets of Transource Oklahoma that may not be distributed to Transource Energy in the form of a loan, advance or dividend was \$100 thousand. 9. RELATED PARTY TRANSACTIONS

#### Affiliated Transmission Revenues

Subsidiaries of AEP that are load serving entities within the SPP region incurred \$38 thousand and \$18 thousand in SPP transmission services costs related to Transource Oklahoma that were billed to them in accordance with the OATT for the years ended December 31, 2023 and 2022, respectively. Transource Oklahoma recorded these affiliated transmission revenues in Operating Revenues.

#### Service Agreements

AEPSC and Evergy Metro, Inc. each provide managerial and professional services to Transource Energy under service agreements. The costs of the services are billed to Transource Energy by AEPSC and Evergy Metro, Inc., on a direct-charge basis whenever possible and on a reasonable basis of proration for services that benefit multiple companies. The billings for services are made on a cost basis on the same basis as such charges are determined for equivalent services that AEPSC provides to other AEP affittates and that Evergy Metro, Inc. provides to other Evergy Metro, Inc. and their billings are subject to regulation by the FERC under the Public Utility Holding Company Act of 2005. Transource Energy bills Transource Oklahoma for these services under a service agreement. Transource Oklahoma's total billings from Transource Energy related to AEPSC services were \$408 thousand and \$337 thousand for the years ended December 31, 2023 and 2022, respectively. Evergy Metro, Inc. would bill Transource Oklahoma directly for Evergy Metro, Inc. related services. As of December 31, 2023, Evergy Metro Inc. has not provided managerial and professional services to Transource Oklahoma.

### Affiliated Long-Term Debt

For the years ended December 31, 2023 and 2022, Transource Oklahoma's intercompany borrowings from Transource Energy increased by \$33.8 million and \$5 million, respectively. See Note 8 - Financing Activities for additional information. 10. REVENUE FROM CONTRACTS WITH CUSTOMERS

### Disaggregated Revenues from Contracts with Customers

Transource Oklahoma's revenue consists of affiliated and nonaffiliated transmission revenues from contracts with customers. The annual transmission revenue true-ups meet the definition of alternative revenues in accordance with the accounting guidance for "Regulated Operations." Transource Oklahoma has \$151 thousand and \$88 thousand of alternative revenues, respectively, for the years ended December 31, 2023 and 2022.

### Performance Obligations

Transource Oklahoma has performance obligations as part of its normal course of business. A performance obligation is a promise to transfer a distinct good or service, or a series of distinct goods or services that are substantially the same and have the same pattern of transfer to a customer. The invoice practical expedient within the accounting guidance for "Revenue from Contracts with Customers" allows for the recognition of revenue from performance obligations in the amount of consideration to which there is a right to invoice the customer.

The purpose of the invoice practical expedient is to depict an entity's measure of progress toward completion of the performance obligation within a contract and can only be applied to performance obligations that are satisfied over time and when the invoice is representative of services provided to date. Transource Oklahoma elected to apply the invoice practical expedient to recognize revenue for performance obligations satisfied over time as the invoices from the respective revenue streams are representative of services or goods provided to date to the customer. Performance obligations for Transource Oklahoma are summarized as follows:

#### Transmission Revenues

Transource Oklahoma has performance obligations to design, develop, construct, operate and maintain transmission plant for the ultimate purpose of transmission of electricity to wholesale customers through assets owned and operated by Transource Oklahoma. The performance obligation to provide transmission services in each RTO is partially fixed for a period of one year or less. Payments from SPP for transmission services are typically received within one week from the issuance of the invoice, which is issued monthly.

Transource Oklahoma collects revenues through Transmission Formula Rates. The FERC-approved rates establish the ATRR and transmission service rates for transmission owners. The formula rates establish rates for a one year period and also include a true-up calculation for the prior year's billings, allowing for over/under-recovery of the transmission owner's ATRR.

#### Contract Assets and Liabilities

Contract assets are recognized when Transource Oklahoma has a right to consideration that is conditional upon the occurrence of an event other than the passage of time, such as future performance under a contract. Transource Oklahoma did not have any material contract assets as of December 31, 2023 and 2022.

When Transource Oklahoma receives consideration, or such consideration is unconditionally due from a customer prior to transferring goods or services to the customer under the terms of a sales contract, they recognize a contract liability on the balance sheets in the amount of that consideration. Revenue for such consideration is subsequently recognized in the period or periods in which the remaining performance obligations in the contract are satisfied. Transource Oklahoma did not have any material contract liabilities as of December 31, 2023 and 2022. Accounts Receivable from Contracts with Customers

Accounts receivable from contracts with customers are presented on Transource Oklahoma's balance sheets in Customer Accounts Receivable. Transource Oklahoma's balances for receivables from contracts that are not recognized in accordance with the accounting guidance for "Revenue from Contracts with Customers" included in Customer Accounts Receivable were not material as of December 31, 2023 and 2022.

The amount of affiliated accounts receivable from contracts with customers included in Accounts Receivable from Associated Companies on Transource Oklahoma's balance sheets were not material as of December 31, 2023 and 2022.

#### Contract Costs

Contract costs to obtain or fulfill a contract for Transource Oklahoma are accounted for under the guidance for "Other Assets and Deferred Costs" and presented as a single asset and neither bifurcated nor reclassified between current assets and deferred debits on the balance sheets. Contract costs to acquire a contract are amortized in a manner consistent with the transfer of goods or services to the customer in Operation Expenses on the statements of income. Transource Oklahoma did not have material contract costs as of December 31, 2023 and 2022.

FERC FORM No. 1 (ED. 12-89)

Page 202-203

| Name of Respondent:<br>Transource Oklahoma, LLC | This report is:<br>(1)<br>☑ An Original<br>(2)<br>☐ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |
|---|--|-------------------------------|---|
|   | ELECTRIC PLANT IN SERVICE (Account 1                               | 01, 102, 103 and 106)         |   |

1. Report below the original cost of electric plant in service according to the prescribed accounts.

2. In addition to Account 101, Electric Plant in Service (Classified), this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Electric Plant Unclassified; and Account 106, Completed Construction Not Classified-Electric.

3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.

4. For revisions to the amount of initial asset retirement costs capitalized, included by primary plant account, increases in column (c) additions and reductions in column (e) adjustments.

5. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.

6. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of the prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

8. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirement of these pages.

9. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchase, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date.

**INVESTMENTS IN SUBSIDIARY COMPANIES (Account 123.1)** 

1. Report below investments in Account 123.1, Investments in Subsidiary Companies.

 Provide a subheading for each company and list thereunder the information called for below. Sub-TOTAL by company and give a TOTAL in columns (e), (f), (g) and (h). (a) Investment in Securities -List and describe each security owned. For bonds give also principal amount, date of issue, maturity, and interest rate. (b) Investment Advances - Report separately the amounts of loans or investment advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. List each investment advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note of open account. List each note giving date of issuance, maturity date, and specifying whether note is a renewal. 3. Report separately the equity in undistributed subsidiary earnings since acquisition. The TOTAL in column (e) should equal the amount entered for Account 418.1. 4. For any securities, notes, or accounts that were pledged designate such securities, notes, or accounts in a footnote, and state the name of pledgee and purpose of the pledge. 5. If Commission approval was required for any advance made or security acquired, designate such fact in a footnote and give name of Commission, date of authorization, and case or docket number.

Report column (f) interest and dividend revenues from investments, including such revenues from securities disposed of during the year.
 In column (h) report for each investment disposed of during the year, the gain or loss represented by the difference between cost of the investment (or the other amount at which carried in the books of account if different from cost) and the selling price thereof, not including interest adjustment includible in column (f).

8. Report on Line 42, column (a) the TOTAL cost of Account 123.1.

## Allowances (Accounts 158.1 and 158.2)

1. Report below the particulars (details) called for concerning allowances.

2. Report all acquisitions of allowances at cost

Report all acquisitions of allowances at cost.
 Report allowances in accordance with a weighted average cost allocation method and other accounting as prescribed by General Instruction No. 21 in the Uniform System of Accounts.
 Report the allowances transactions by the period they are first eligible for use: the current year's allowances in columns (b)-(c), allowances for the three succeeding years in columns (d)-(i), starting with the following year, and allowances for the remaining succeeding years in columns (j)-(k).
 Report on Line 4 the Environmental Protection Agency (EPA) issued allowances. Report withheld portions Lines 36-40.
 Report on Line 5 allowances returned by the EPA. Report on Line 39 the EPA's sales of the withheld allowances. Report on Lines 43-46 the net sales proceeds and gains/losses resulting from the EDB or experiment of the withheld allowances.

EPA's sale or auction of the withheld allowances.

7. Report on Lines 8-14 the names of vendors/transferors of allowances acquired and identify associated companies (See "associated company" under "Definitions" in the Uniform System of Accounts).

8. Report on Lines 22 - 27 the name of purchasers/ transferees of allowances disposed of and identify associated companies.

Report the net costs and benefits of hedging transactions on a separate line under purchases/transfers and sales/transfers.
 Report on Lines 32-35 and 43-46 the net sales proceeds and gains or losses from allowance sales.

| Name of Respondent:<br>Transource Oklahoma, LLC | This report is:<br>(1)<br>☑ An Original<br>(2)<br>□ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |  |  |  |
|---|--|-------------------------------|---|--|--|--|
| LONG-TERM DEBT (Account 221, 222, 223 and 224)  |  |                               |   |  |  |  |

1. Report by Balance Sheet Account the details concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt.

For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds, and in column (b) include the related account number.
 For Advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received, and in column (b) include the related account number.

4. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued, and in column (b) include the related account number.
5. In a supplemental statement, give explanatory details for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a)principal advanced during year (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledge and purpose of the pledge.
7. If the respondent has any long-term securities that have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (m). Explain in a footnote any difference before end of year, include such interest expense in column (m). Explain in a footnote any difference

between the total of column (m) and the total Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies. 9. Give details concerning any long-term debt authorized by a regulatory commission but not yet issued.

| Trans      | me of Respondent:       This report is:       Date of Report:       Vear/Period of Report         nsource Oklahoma, LLC       An Original       Date of Report:       Vear/Period of Report         (2)       A Resubmission       A Resubmission       Period of Report:         1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.       If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be field, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group member, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.         3. A substitute page, designed to meet a particular need of a company, may be used as Long as the data is consistent and meets the requirements.       The above instructions. For electronic reporting provide the substitute Page in the context of a footnote. |                       |  |  |                          |  |  |  |

Federal Income Tax on Current Year Taxaure Inc. NOL Reclass Estimated Current Federal Income Taxes (Net) Adjustments of Prior year's Accruals (Net) Estimated Current Federal Income Taxes(Net) FERC FORM NO. 1 (ED. 12-96)

| Name of Respondent:<br>Transource Oklahoma, LLC   | This report is:<br>(1)<br>☑ An Original<br>(2)<br>□ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |  |  |  |  |
|---|--|-------------------------------|---|--|--|--|--|
| TAXES ACCRUED, PREPAID AND CHARGES DURING YEAR  |  |                               |   |  |  |  |  |
| 1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other |  |                               |   |  |  |  |  |

sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual, or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.

2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes.) Enter the amounts in both columns (g) and (h). The balancing of this

and the page, most place of the page is not affected by the inclusion of these taxes.
 Include in column (g) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b)amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.

4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

 5. If any tax (exclude Federal and State income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (d).
 6. Enter all adjustments of the accrued and prepaid tax accounts in column (i) and explain each adjustment in a foot- note. Designate debit adjustments by parentheses.
 7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority. 8. Report in columns (I) through (o) how the taxes were distributed. Report in column (o) only the amounts charged to Accounts 408.1 and 409.1 pertaining to electric operations. Report in column (I) the amounts charged to Accounts 408.2 and 409.2. Also shown in column (o) the taxes charged to utility plant or other balance sheet accounts.

9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

## ACCUMULATED DEFERRED INVESTMENT TAX CREDITS (Account 255)

Report below information applicable to Account 255. Where appropriate, segregate the balances and transactions by utility and nonutility operations. Explain by footnote any correction adjustments to the account balance shown in column (g). Include in column (i) the average period over which the tax credits are amortized.

#### SALES FOR RESALE (Account 447)

1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326).

2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows

RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.

SF - for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.

LU - for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.

OS - for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote.

AD - for Out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

- Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) after this Listing. Enter "Total" in column (a) as the Last Line of the schedule. Report subtotals and total for columns (g) through (k).
   In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided.
- 5. In Column (c), loading the PERC Rate Schedule of faith Number. On separate Lines, List all PERC rate schedules of faiths funder which service, as identified in column (d), is provided.
  6. For requirements RQ sales and any type of-service involving demand charges imposed on a monthly (or Longer) basis, enter the average monthly billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- Report in column (g) the megawatt hours shown on bills rendered to the purchaser.
   Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the purchaser.
- 9. The data in column (g) through (k) must be subtotaled based on the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, line 23. The "Subtotal Non-RQ" amount in column (g) must be reported as Non-Requirements Sales For Resale on Page 401, line 24.
- 10. Footnote entries as required and provide explanations following all required data.

FERC FORM NO. 1 (ED. 12-93)

| Name of Respondent:<br>Transource Oklahoma, LLC |  |  | Year/Period of Report<br>End of: 2023/ Q4 |
|---|--|--|---|
|---|--|--|---|

#### PURCHASED POWER (Account 555)

1. Report all power purchases made during the year. Also report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.

2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service expect that "intermediate-term" means longer than one year but less than five years.

SF - for short-term service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.

LU - for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service expect that "intermediate-term" means longer than one year but less than five years.

EX - For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlements for imbalanced exchanges.

OS - for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote for each adjustment.

AD - for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

- 4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
- 5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 6. Report in column (g) the megawatthours shown on bills rendered to the respondent, excluding purchases for energy storage. Report in column (h) the megawatthours shown on bills rendered to the respondent for energy storage purchases. Report in columns (i) and (j) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
- 7. Report demand charges in column (k), energy charges in column (I), and the total of any other types of charges, including out-of-period adjustments, in column (m). Explain in a footnote all components of the amount shown in column (m). Report in column (n) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (n) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (m) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
- 8. The data in columns (g) through (n) must be totaled on the last line of the schedule. The total amount in columns (g) and (h) must be reported as Purchases on Page 401, line 10. The total amount in column (i) must be reported as Exchange Received on Page 401, line 12. The total amount in column (j) must be reported as Exchange Delivered on Page 401, line 13.

9. Footnote entries as required and provide explanations following all required data.

| TRANSMISSION OF EI   | ECTRICITY FOR OTHERS (Account 456.1) (In                           | cluding transactions referred to as '      | 'wheeling")  |
| 1 Report all transmission of electricity i.e. wheeling provide | ed for other electric utilities cooperatives other p               | ublic authorities qualifying facilities no | n-traditional utility suppliers and ultimate customers |

for the quarter. 2. Use a separate line of data for each distinct type of transmission service involving the entities listed in column (a), (b) and (c).

3. Report in column (a) the company or public authority that paid for the transmission service. Report in column (b) the company or public authority that the energy was received from and in column (c) the company or public authority that the energy was delivered to. Provide the full name of each company or public authority. Do not abbreviate or truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation the respondent has with the entities listed in columns (a), (b) or (c).

4. In column (d) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNO - Firm Network Service for Others, FNS - Firm Network Transmission Service for Self, LFP - "Long-Term Firm Point to Point Transmission Service, OLF - Other Long-Term Firm Transmission Service, SFP - Short-Term Firm Point to Point Transmission Reservation, NF - non-firm transmission service, OS - Other Transmission Service and AD - Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment. See General Instruction for definitions of codes. 5. In column (e), identify the FERC Rate Schedule or Tariff Number, On separate lines, list all FERC rate schedules or contract designations under which service, as identified in column (d), is

- provided.
- 6. Report receipt and delivery locations for all single contract path, "point to point" transmission service. In column (f), report the designation for the substation, or other appropriate identification for where energy was received as specified in the contract. In column (g) report the designation for the substation, or other appropriate identification for the substation for the substation for the substation for the substation for the substation. contract.
- 7. Report in column (h) the number of megawatts of billing demand that is specified in the firm transmission service contract. Demand reported in column (h) must be in megawatts. Footnote any demand not stated on a megawatts basis and explain.
- 8. Report in column (i) and (j) the total megawatthours received and delivered.

9. In column (k) through (n), report the revenue amounts as shown on bills or vouchers. In column (k), provide revenues from demand charges related to the billing demand reported in column (h). In column (I), provide revenues from energy charges related to the amount of energy transferred. In column (m), provide the total revenues from all other charges on bills or vouchers rendered, including out of period adjustments. Explain in a footnote all components of the amount shown in column (m). Report in column (n) the total charge shown on bills rendered to the entity Listed in column (a). If no monetary settlement was made, enter zero (0) in column (n). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.

10. The total amounts in columns (i) and (j) must be reported as Transmission Received and Transmission Delivered for annual report purposes only on Page 401, Lines 16 and 17, respectively. 11. Footnote entries and provide explanations following all required data.

| TRANSMISSION OF ELECTRICITY BY OTHERS (Account 565)               |  |  |   |  |  |  |
| 1. Depart all transmission, i.e. wheeling as electricity provided | by other electric utilities, econoratives, municipa                | litica ather public outheritica, qualifyin | a facilities, and others for the averter  |  |  |  |

1. Report all transmission, i.e. wheeling or electricity provided by other electric utilities, cooperatives, municipalities, other public authorities, qualifying facilities, and others for the quarter. 2. In column (a) report each company or public authority that provided transmission service. Provide the full name of the company, abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the transmission service provider. Use additional columns as necessary to report all companies or public authorities that provided transmission service for the quarter reported.

a landinustrial solution of the service of service of service as follows: 5 In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNS - Firm Network Transmission Service for Setf, LFP - Long-Term Firm Point-to-Point Transmission Reservations. OLF - Other Long-Term Firm Transmission Service, SFP - Short-Term Firm Point-to- Point Transmission Reservations, NF - Non-Firm Transmission Service, and OS - Other Transmission Service. See General Instructions for definitions of statistical classifications. 4. Report in column (c) and (d) the total megawatt hours received and delivered by the provider of the transmission service.

| The port in column (c) and (d) no total megawate notice received and derivered by the provider of the transmission convice.   |
|---|
| 5. Report in column (e), (f) and (g) expenses as shown on bills or vouchers rendered to the respondent. In column (e) report the demand charges and in column (f) energy charges related to the       |
| amount of energy transferred. On column (g) report the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all |
| components of the amount shown in column (g). Report in column (h) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero in column (h).          |
| Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.   |

Enter "TOTAL" in column (a) as the last line.
 Footnote entries and provide explanations following all required data.

| Name of Respondent:<br>Transource Oklahoma, LLC                         | This report is:<br>(1)<br>☑ An Original<br>(2)<br>□ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |  |  |  |
|---|--|-------------------------------|---|--|--|--|
| Depreciation and Amortization of Electric Plant (Account 403, 404, 405) |  |                               |   |  |  |  |

1. Report in section A for the year the amounts for: (b) Depreciation Expense (Account 403); (c) Depreciation Expense for Asset Retirement Costs (Account 403.1); (d) Amortization of Limited-Term Electric Plant (Account 404); and (e) Amortization of Other Electric Plant (Account 405).

2. Report in Section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute charges and whether any changes have been made in the basis or rates used from the preceding report year. 3. Report all available information called for in Section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the

Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a

rate is applied. Identify at the bottom of Section C the type of plant included in any sub-account used.

In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional Classifications and showing composite total. Indicate at the bottom of section C the manner in which column balances are obtained. If average balances, state the method of averaging used. For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in

estimating average service Lives, show in column (f) the type of mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant. If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis. 4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the

provisions and the plant items to which related.

FERC FORM NO. 1 (REV. 12-03)

|   | This report is:<br>(1) |   |
|---|------------------------|---|
| Name of Respondent:<br>Transource Oklahoma, LLC |                        | Year/Period of Report<br>End of: 2023/ Q4 |
|   | (2)                    |   |
|   | A Resubmission         |   |

### REGULATORY COMMISSION EXPENSES

Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to format cases before a regulatory body, or cases in which such a body was a party.
 Report in columns (b) and (c), only the current year's expenses that are not deferred and the current year's amortization of amounts deferred in previous years.
 Show in column (k) any expenses incurred in prior years which are being amortized. List in column (a) the period of amortization.
 List in columns (f), (g), and (h), expenses incurred during the year which were charged currently to income, plant, or other accounts.

5. Minor items (less than \$25,000) may be grouped.

|   | COMMON UTILITY PLANT AND   | EXPENSES                      |   |  |  |  |  |
| <ol> <li>Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by accounts as provided by Electric Plant Instruction 13,<br/>Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of<br/>allocation used, giving the allocation factors.</li> <li>Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility</li> </ol> |  |                               |   |  |  |  |  |

Purnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the common utility plant to which such accumulated provisions relate, including explanation of basis of allocation and factors used.
 Give for the year the expenses of operation, maintenance, rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.
 Give date of approval by the Commission for use of the common utility plant classification and reference to the order of the Commission or other authorization.

## MONTHLY TRANSMISSION SYSTEM PEAK LOAD

Report the monthly peak load on the respondent's transmission system. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.
 Report on Column (b) by month the transmission system's peak load.
 Report on Columns (c) and (d) the specified information for each monthly transmission - system peak load reported on Column (b).
 Report on Columns (e) through (j) by month the system' monthly maximum megawatt load by statistical classifications. See General Instruction for the definition of each statistical classification.

## MONTHLY PEAKS AND OUTPUT

Report the monthly peak load and energy output. If the respondent has two or more power which are not physically integrated, furnish the required information for each non- integrated system.
 Report in column (b) by month the system's output in Megawatt hours for each month.
 Report in column (c) by month the non-requirements sales for resale. Include in the monthly amounts any energy losses associated with the sales.
 Report in column (d) by month the system's monthly maximum megawatt load (60 minute integration) associated with the system.
 Report in column (e) and (f) the specified information for each monthly peak load reported in column (d).

| This report is:<br>(1)<br>☑ An Original<br>(2)<br>□ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |
|--|-------------------------------|---|
| Steam Electric Generating Plan                                     | t Statistics                  |   |

1. Report data for plant in Service only.

2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants

3. Indicate by a footnote any plant leased or operated as a joint facility.

4. If net peak demand for 60 minutes is not available, give data which is available, specifying period.

5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mcf.

7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20.

 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.
 9. Items under Cost of Plant are based on USofA accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses

10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit

functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant.

12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

## **GENERATING PLANT STATISTICS (Small Plants)**

1. Small generating plants are steam plants of, less than 25,000 Kw; internal combustion and gas turbine-plants, conventional hydro plants and pumped storage plants of less than 10,000 Kw installed capacity (name plate rating).

2. Designate any lant leased from others, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, and give a concise statement of the facts in a footnote. If licensed project, give project number in footnote. 3. List plants appropriately under subheadings for steam, hydro, nuclear, internal combustion and gas turbine plants. For nuclear, see instruction 11, Page 402.

4. If net peak demand for 60 minutes is not available, give the which is available, specifying period.
5. If any plant is equipped with combinations of steam, hydro internal combustion or gas turbine equipment, report each as a separate plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, or for preheated combustion air in a boiler, report as one plant.

| Name of Respondent:<br>Transource Oklahoma, LLC | This report is:<br>(1)<br>☑ An Original<br>(2)<br>□ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |  |  |  |  |  |  |
|---|--|-------------------------------|---|--|--|--|--|--|--|
|   | ENERGY STORAGE OPERATIONS (Large Plants)                           |                               |   |  |  |  |  |  |  |

1. Large Plants are plants of 10,000 Kw or more.

2. In columns (a) (b) and (c) report the name of the energy storage project, functional classification (Production, Transmission, Distribution), and location.

a. In columns (a) (b) and (c) report the name or the energy storage project, functional classification (Production, Transmission, Distribution), and location.
b. In column (d), report Megawatt hours (MWH) purchased, generated, or received in exchange transactions for storage.
c. In columns (e), (f) and (g) report MWHs delivered to the grid to support production, transmission and distribution. The amount reported in column (d) should include MWHs delivered/provided to a generator's own load requirements or used for the provision of ancillary services.
c. In columns (h), (i), and (j) report MWHs lost during conversion, storage and discharge of energy.
d. In column (k) report the MWHs sold.

 a column (a) report the inversion.
 a footnote, disclose the revenue accounts and revenue amounts related to the income generating activity.
 In column (m), report the cost of power purchased for storage operations and reported in Account 555.1, Power Purchased for Storage Operations. If power was purchased from an affiliated seller specify how the cost of the power was determined. In columns (n) and (o), report fuel costs for storage operations associated with self-generated power included in Account 501 and other costs associated with self-generated power.

9. In columns (q), (r) and (s) report the total project plant costs including but not exclusive of land and land rights, structures and improvements, energy storage equipment, turbines, compressors, generators, switching and conversion equipment, lines and equipment whose primary purpose is to integrate or tie energy storage assets into the power grid, and any other costs associated with the energy storage project included in the property accounts listed.

| 2. Ir<br>3. Ir<br>s:<br>4. Ir<br>A | ENERGY STORAGE OPERATIONS (Small Plants)      Small Plants are plants less than 10,000 Kw.      In columns (a), (b) and (c) report the name of the energy storage project, functional classification (Production, Transmission, Distribution), and location.     In column (d), report project plant cost including but not exclusive of land and land rights, structures and improvements, energy storage equipment and any other costs associated with the energy storage project.      In column (e), report operation expenses excluding fuel, (f), maintenance expenses, (g) fuel costs for storage operations and (h) cost of power purchased for storage operations and reported in Account 555.1, Power Purchased for Storage Operations. If power was purchased from an affiliated seller specify how the cost of the power was determined.     In y other expenses, report in columm (i) and footnote the nature of the item(s). |                                     |                                   |                        |   |                               |  |   |                          |

FERC FORM NO. 1 (ED. 12-87)

| Name of Respondent:<br>Transource Oklahoma, LLC  | This report is:<br>(1)<br>☑ An Original<br>(2)<br>☐ A Resubmission | Date of Report:<br>04/09/2024 | Year/Period of Report<br>End of: 2023/ Q4 |  |  |  |  |
|--|--|-------------------------------|---|--|--|--|--|
| TRANSMISSION LINES ADDED DURING YEAR   |  |                               |   |  |  |  |  |
| 1. Report below the information called for concerning Transmission lines added or altered during the year. It is not necessary to report minor revisions of lines. |  |                               |   |  |  |  |  |

Provide separate subjectings for overhead and more ground consultation and show each remaining separately. In action costs of complete consultation are not reading and note and not experiling to report in these columns (I) to (o), it is permissible to report in these columns the costs. Designate, however, if estimated amounts are reported. Include costs of Clearing Land and Rights-of-Way, and Roads and Trails, in column (I) with appropriate footnote, and costs of Underground Conduit in column (m).
 If design voltage differs from operating voltage, indicate such fact by footnote; also where line is other than 60 cycle, 3 phase, indicate such other characteristic.

FERC FORM NO. 1 (REV. 12-03)

| Name of Respondent:      |  | Date of Report: | Year/Period of Report |  |  |  |
|--------------------------|--|-----------------|-----------------------|--|--|--|
| Transource Oklahoma, LLC |  | 04/09/2024      | End of: 2023/ Q4      |  |  |  |
| SUBSTATIONS              |  |                 |                       |  |  |  |

- 1. Report below the information called for concerning substations of the respondent as of the end of the year. 2. Substations which serve only one industrial or street railway customer should not be listed below.
- 3. Substations with capacities of Less than 10 MVA except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.

4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f). 5. Show in columns (I), (j), and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.

6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.
