

Kentucky Power Company
Big Sandy Power Plant
Bottom Ash Pond
Hazard Potential Classification Assessment

The Bottom Ash Pond was closed by removal. All CCR and water were removed. The dikes forming the pond were removed by excavation by June 2018.

The Hazard Potential Classification Assessment no longer applies since there is no surface impoundment.

Professional Engineer's Certification:

I certify that this CCR dam/dike no longer exists.

Gary F. Zych, P.E.
