Honorable Kimberly D. Bose  
Secretary  
Federal Energy Regulatory Commission  
888 First Street NE, Room 1A  
Washington, DC 20426  

Re: American Electric Power Service Corporation  
Docket No. ER08-____-000

Dear Secretary Bose:

Pursuant to Section 205 of the Federal Power Act, 18 U.S.C. § 824d (1994), American Electric Power Service Corporation ("AEPSC"), on behalf of the operating public utilities of the American Electric Power System (collectively "AEP"), herewith submits for filing amendments to the Open Access Transmission Tariff ("OATT") on file with the Commission as AEP’s FERC Electric Tariff, Third Revised Volume No. 6. This filing changes the rates of AEP Texas Central Company ("TCC") for transmission service within the Electric Reliability Council of Texas ("ERCOT") and Texas Central Regional Transmission Service ("ERCOT RTS") pursuant to the terms and conditions set out in Part IV of the OATT. The rates for ERCOT RTS are specified in Attachment K of the OATT. The changes to TCC’s rates for ERCOT RTS are being changed to reflect a reduction in the transmission revenue requirement recently approved by the Public Utility Commission of Texas ("PUCT") in Docket No. 33309. TCC’s current interim rates were accepted by the Commission in Docket No. ER07-626-000 and put into effect on May 14, 2007 under bond, subject to true-up and refund until the PUCT’s final decision in its Docket No. 33309. TCC has received the PUCT’s final order on rehearing and is now lowering its OATT rates to coincide with those approved by the PUCT. Under the regional practice principles adopted in Central Power and Light Co., et al., 81 FERC ¶ 61,311 (1997), AEPSC requests the Commission accept the revised TCC rates to become effective as of May 14, 2007.  

TCC was directed by the PUCT to file compliance rates pursuant to the final order in Docket No. 33309. On January 2, 2008 TCC filed a compliance tariff in PUC1 Tariff Control No. 33093 – Compliance Tariff of AEP Texas Central Company Pursuant to Final Order in PUC Docket No. 33309. The compliance rates were approved on January 29, 2008, subject to rehearing. A motion for rehearing was filed in Docket No. 33309 on January 2, 2008. The

---

Order on Rehearing was issued on March 4, 2008. The workpapers showing the calculation of the final approved annual rate can be located on the PUCT website in Tariff Control No. 35093, Item No. 2, page 547 (a link to the relevant section of the PUCT website is provided below)

I Contents of Filing

This filing consists of an original and six copies of this transmittal letter and the following documents:

1. Attachment 1, Revised pages of the OATT (in blacklined and clean versions) incorporating the requested tariff changes; and

2. Attachment 2, a summary of the calculations supporting the revised rates

3. The PUCT Order in PUCT Docket No. 33309, dated March 4, 2008, which sets all of TCC rates, including transmission rates, is located at:

   http://interchange.puc.state.tx.us/WebApp/Interchange/application/dbapps/filings/pgSearch_Results.asp?TXT_CNTR_NO=33309&TXT_ITEM_NO=769

4. The State Office of Administrative Hearings administrative law judge’s Notice of Approval dated January 29, 2008 approving TCC’s compliance filing in PUC1 Tariff Control No. 35093 which set TCC’s transmission rates is located at:

   http://interchange.puc.state.tx.us/WebApp/Interchange/application/dbapps/filings/pgSearch_Results.asp?TXT_CNTR_NO=35093&TXT_ITEM_NO=8

The complete history of the PUCT dockets can be found through the following link to the PUCT Filing Locator at:

   http://interchange.puc.state.tx.us/WebApp/Interchange/application/dbapps/filings/pgSearch.asp

To access either TCC Docket, choose Filing/Interchange, from the list on the left of the screen, and then choose “Filings Retrieval”. After Filings Retrieval, select “Log In” and enter the docket number (33309 or 35093) and click on “Search” for the complete history of each docket. The search should locate approximately 770 documents for Docket 33309, and 11 documents for Docket 35093.

II Request for Effective Date and Waiver

TCC has the statutory right under Texas law to implement interim ERCOT transmission service rates, subject to true-up and refund, to be effective May 14, 2007. As such, AEPSC respectfully requests that, to the extent deemed necessary, the Commission waive its usual minimum 60-day notice requirements and any other requirements of its Rules and Regulations with which this filing may not comply, and accept the revised tariff sheets to
be effective on May 14, 2007 Good cause exists to grant the requested waivers The Commission has regularly allowed ICC and its sister ERCOT company AEP Texas North Company to follow ERCOT regional practices under the time frames established by the PUCT, see, e.g., Central Power and Light Co., et al., 81 FERC ¶ 61,311 (1997) As explained herein, the PUCI has already determined that the updated ICC revenue requirement is reasonable The PUCT issued its Order establishing ICC’s revenue requirement only after lengthy proceedings, including hearings and settlement discussions No customers will be adversely affected by the Commission’s acceptance of the changes to the OATT Upon acceptance of the changes proposed herein, AEPSC will make refunds to affected customers, including interest at the applicable FERC refund interest rates, pursuant to 18 CFR § 35.19(a), from the dates of payment until the date of refund AEPSC also requests an effective date of March 12, 2008 for the changes made to OATT Attachments L and E-1, the indices of customers taking Firm Point-to-Point and ERCOT RTS, respectively, under the OATT This requested effective date of these sheets coincides with the date of this filing These changes merely bring the appropriate sheets in the OATT up to date with the names of customers that have been added and removed since these sheets were last updated

III. Revisions to the OATT

A. Revised Revenue Requirement for Service Under Part IV

AEP has updated the revenue requirements underlying the rates to be charged by ICC for service under Part IV of the OATT consistent with the PUCT Order. The Commission has regularly allowed ICC to base its transmission rates for Part IV service on the revenue requirement that the PUCT has found to be reasonable. See, e.g., Central Power and Light Co., et al., 81 FERC ¶ 61,311 (1997) AEP respectfully requests that the Commission should follow that practice in this case and waive its regulations to the extent necessary to approve the revised ERCOT RTS rate for ICC as a Texas regional practice

B. Description of Proposed OATT Changes

The amendments to the OATT are described below:

Attachment E-1, Index of Firm Point-To-Point Transmission Customers Under Part II of the Tariff is amended for house keeping purposes to remove one customer since the index was last issued

Attachment K Annual Transmission Revenue Requirement for ERCOT RTS is amended to provide for updated annual access rates, export service rates, and, for informational purposes, the retail charges that ICC will apply to collect from retail customers the ERCOT-wide transmission revenue requirement of Texas transmission service providers ("TSPs"), including the change in TCC’s revenue requirement as one of the Texas TSPs

Attachment L Index of ERCOT Regional Transmission Service Customers is amended to include customers added since the index was last issued
IV. Service

A complete copy of this filing is being mailed to the Public Utility Commission of Texas and the ERCOT RIS Customers. In addition, a complete copy of this filing is being made available on AEP’s web site. Interested parties should open the hyperlink provided below, using their internet web browser, and then scroll down to the section headed “Tariff Filings” to locate the filing labeled as “TCC ERCOT RIS Rate Filing, dated March 12, 2008”:

http://aep.com/about/codeofconduct/OASIS/default.asp

The complete OATT is also available from the identified page of AEP’s website.

ATTACHMENT K

Annual Transmission Revenue Requirement for ERCOT Regional Transmission Service

The charges in this Attachment K, for ERCOT Regional Transmission Service provided under Part IV of the Tariff, are made subject to final determination by the Public Utility Commission of Texas ("PUCT") and acceptance thereafter by the Commission ("Final Rates"). Upon issuance of a final decision by the PUCT in Docket Nos. 33309 and 33310, any amounts collected in excess of those resulting from the Final Rates will be refunded, together with interest calculated in accordance with the Commission's regulations at 48 C.F.R. § 35.19a(3)(ii). Until the Final Rates are accepted by the Commission, charges for ERCOT Regional Transmission Service, hereunder, shall be determined as follows:

1 ERCOT Regional Transmission Service Charges

A. For Service To Load Within ERCOT

Charges for ERCOT Regional Transmission Service are to be determined by dividing the annual facilities charge by 12, or by other means as mutually agreed upon by the Transmission Provider and the ERCOT Regional Transmission Service Customer and specified in the Service Agreement. Under no circumstances shall the sum of the monthly charges due in any calendar year be more or less than the annual facilities charge due under this Tariff.

The annual facilities charges are the sum of: (1) the product of the annual access rate for ICC (set forth below) multiplied by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCT pursuant to Chapter 25; and (2) the product of the annual access rate for TNC (set forth below) multiplied by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCT pursuant to Chapter 25.

The annual access rate for ICC is $1 8338 + 0716896/kW
The annual access rate for TNC is $0.702268/kW

In addition to the ICC annual facilities charges determined above, the ERCOT Regional Transmission Service Customer shall pay ICC a monthly rate expense surcharge determined by multiplying $0.00799/kW by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCT pursuant to Chapter 25. Such monthly surcharge shall begin on July 1, 2006, and continue for a period of thirty-six (36) months or until the total amount collected by each monthly surcharge equals $1,516,934.

B. **For Service To Export Electric Power From ERCOT**

ERCOT Regional Transmission Service charges for exports of electric power from ERCOT to the boundaries of ERCOT are to be based on the kilowatts that are actually exported, the duration of the transaction and the rates set forth below. The monthly rate for service in the on-peak season (June through September) will be one-fourth the Transmission Provider’s annual access rate. The monthly rate for service in the off-peak season will be one-twelfth the Transmission Provider’s annual access rate. The weekly, daily and hourly rates for service in the on-peak season will be the annual access rate divided by the number of weeks, days and hours respectively in the on-peak season. The weekly, daily and hourly rates for service in the off-peak season will be the annual access rate divided by the number of weeks, days and hours respectively in the year. TCC’s and TNC’s charges for any transaction shall not exceed the product of their annual access rate times the highest amount of kilowatts actually exported.

2 Monthly Retail Transmission System Use Rates

The rates contained in this Section 2 of Attachment K are provided for informational purposes only. As required by Chapter 25 of the PUCT Substantive Rules, the transmission charges of the Transmission Provider under this Tariff (Attachment K, Section 1), and the transmission service charges of other ERCOT transmission service providers will be collected by the local distribution service providers (ICC & INC) under six customer class specific rates approved by the PUCT. Transmission Charges to Retail Energy Providers serving consumers in the portion of ERCOT where ICC and INC provide distribution service will be charged per consumer in accordance with the following:

ATTACHMENT K

Annual Transmission Revenue Requirement for ERCOT Regional Transmission Service

The charges in this Attachment K, for ERCOT Regional Transmission Service provided under Part IV of the Tariff, shall be determined as follows:

1. ERCOT Regional Transmission Service Charges
   A. For Service To Load Within ERCOT

   Charges for ERCOT Regional Transmission Service are to be determined by dividing the annual facilities charge by 12, or by other means as mutually agreed upon by the Transmission Provider and the ERCOT Regional Transmission Service Customer and specified in the Service Agreement. Under no circumstances shall the sum of the monthly charges due in any calendar year be more or less than the annual facilities charge due under this Tariff.

   The annual facilities charges are the sum of: (1) the product of the annual access rate for ICC (set forth below) multiplied by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCI pursuant to Chapter 25; and (2) the product of the annual access rate for INC (set forth below) multiplied by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCI pursuant to Chapter 25.

   The annual access rate for ICC is $1,671/696/kW
   The annual access rate for INC is $0.702/268/kW

   In addition to the ICC annual facilities charges determined above, the ERCOT Regional Transmission Service Customer shall pay ICC a monthly rate case expense surcharge determined by multiplying $0.00079/kW by the ERCOT Regional Transmission Service Customer's demand at the time of the most recent ERCOT system coincident peak demand, as determined by the PUCI pursuant to Chapter 25. Such monthly surcharge shall begin on July 7, 2006, and continue for a period of thirty-six (36) months or until the total amount collected by each monthly surcharge equals $1,516,934.
